

**WE
CONTINUE
TO
SERVE**

The world is facing greatest crises and we continue to serve our best to protect people, community and livelihoods. We have taken various response measures to support the national efforts to tackle the COVID-19 pandemic. KRIA, a part of Kharawala foundation is coming together to support each other and our communities, as we confront COVID-19. KRIA, distributed 34000 masks to our Front end warriors, Police department, Hospitals and local communities. These mask are made by women connected to KRIA Foundation, to support the emergency response locally and to maintain the livelihoods. Our Employee relief fund donations aided in organizing and distributing food kits to the needy as relief support. The foundation has been closely working with Regional Health care organization and provided emergency ambulance, Viroguard suits, medical equipment and instrument support. KRIA foundation has contributed to CM Fund and is constantly and continuously supporting local relief activities.

Together we fight against this Pandemic.
